

Dear Friends and Colleagues,

Healthcare markets are evolving rapidly, and we are seeing these changes reflected in our conversations with clients, investors, innovators and partners on a daily basis.

Over the past quarter, Anadach has supported multinational organizations, investors, healthcare businesses and emerging health-tech companies across a range of strategic opportunities. We are seeing particularly strong interest in healthcare investment, market expansion, local manufacturing and technology solutions especially leveraging Artificial Intelligence that can improve access to quality care.

These developments reinforce an important opportunity: Improving access to access to high-quality products and services will require not only capital and innovation, but also the right partnerships, market intelligence and execution capabilities.

At Anadach, we remain focused on helping organizations navigate these opportunities and translate healthcare ambitions into sustainable, commercially viable solutions.

If your organization is exploring an investment, market expansion, healthcare innovation or strategic partnership opportunity, we would welcome a conversation.

JOIN US

Business Vision for Reimagining Global Health on Monday, October 12, from 5 – 7 PM at Hotel Palace Berlin.

and

African Healthcare Manufacturing Trade Exhibition and Conference (AHMTEC 2026) from 26 – 28 October 2026 at the Ethiopian Skylight Hotel in Addis Ababa

Events such as these are an excellent way to network with industry peers, develop new relationships, and collaborate on common goals. We look forward to seeing you!

Best,
The Anadach Team

Business Vision for Reimagining Global Health

*An interactive side event alongside the
World Health Summit*

Join PQMD, FINN Partners and Anadach Group for an intimate, discussion-driven gathering exploring how NGOs, the private sector and other global health leaders can build new models of partnership that create shared value and sustainable impact.

 **Monday, October 12, 2026** | 5:00–7:00 PM

 **Hotel Palace Berlin** | Budapester Strasse 45, 10787 Berlin

Drink and light food will be served.

Space will be limited. Formal invitation and program details to follow.

*Please note: This is an independent event taking place alongside the World Health Summit.
WHS registration is not required to attend.*

Interested in joining the conversation?

Let us know.

If you are going to be in Berlin this October, we hope you'll save the date for a different kind of global health conversation taking place outside, but alongside the World Health Summit.

PQMD, FINN Partners and Anadach Group will host ***Business Vision for Reimagining Global Health*** on **Monday, October 12, from 5 –7 PM at Hotel Palace Berlin.**

Drop in. Dig deep. Move around. Make connections.

We all see that global health is changing. What role will business play in shaping what comes next?

This event puts the private sector at the center of the conversation alongside NGO, foundation, and government representatives to explore where business insight, investment and partnership can contribute to sustainable health impact.

Facilitated table discussions will tackle: the economic & health impact of a changing global health landscape; financing the future of health access; reimagining Industry-NGO partnerships; and the role of the private sector in making access to healthcare sustainable.

Grab a drink and a bite, choose the conversation that interests you most, or move around the room and join several conversations. The evening is designed for informal exchange, fresh thinking and connections that might lead inspire you and possibly forge the start of great partnerships.

Excited to be part of the discussion? [Express your interest here](#) and we'll follow up with additional program and registration details as they become available. *Space will be limited to encourage substantive conversation and exchange.*

We would be grateful if you would please share this Save the Date with your colleagues and partners who will be in Berlin and interested in participating.

Please note: This is an independent event taking place alongside the World Health Summit. WHS registration is not required to attend.

INDUSTRIALISE TO COMMERCIALISE

Anadach is partnering with the African Healthcare Manufacturing Trade Exhibition and Conference (AHMTEC 2026) to drive healthcare manufacturing expansion across the continent. Taking place from 26 – 28 October 2026 at the Ethiopian Skylight Hotel in Addis Ababa, Ethiopia.

AHMTEC 2026 brings together pharmaceutical companies, medical device manufacturers, investors, regulators, and healthcare leaders under the theme *Industrialise to Commercialise*.

In addition to pan-African conversations, there will be specific regional conversations including the **West Africa Market Expansion Conversation** we are supporting.

Why this matters:

African manufacturers increasingly need to look beyond domestic markets and develop regional strategies for regulatory access, distribution, financing and commercial expansion.

Connect with Our Team

To explore delegate registration, exhibition booths, or regional session participation, contact:

Event Website: <https://ahmtec.org/>

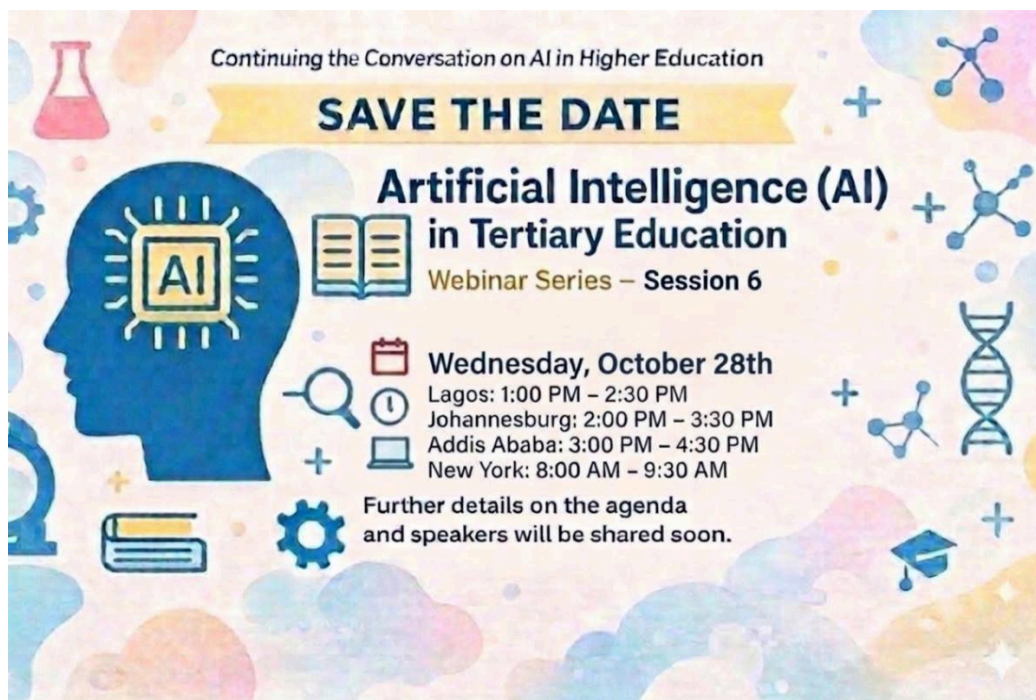

We are excited to share key updates regarding the upcoming **International Conference on Public Health in Africa (CPHIA)** hosted by the Africa CDC.

Key Conference Highlights:

- **Submit Your Abstract:** Present your research and insights to public health leaders across the continent. Abstract submissions are open through **September 30th**. Don't miss the deadline to share your work! <https://cphia.africacdc.org/abstracts/submit>
- **Register Now:** Registration is officially open. Secure your spot today to engage with experts, policymakers, and practitioners driving public health transformation across Africa. <https://cphia.africacdc.org/>

Be sure to submit your abstract before September 30th and register early to join the conversation shaping the future of African public health!

We are thrilled to invite you to Session 6 of our ongoing webinar series, Artificial Intelligence (AI) in Tertiary Education, where we continue the conversation on how AI is reshaping the future of higher learning.

Healthcare has been on the absolute frontline of deploying, scaling, and regulating complex AI systems. What can universities, colleges, and academic institutions learn from their successes, pitfalls, and ethical frameworks to build future-ready learning ecosystems?

Join us as we bridge the gap between healthcare innovation and higher education strategy.

The full agenda and our expert speaker lineup will be revealed very soon

PAST EVENTS:

**12TH ANNUAL
NIGERIAN HEALTHCARE
EXCELLENCE AWARD 2026**

The 12th Annual Nigerian Healthcare Excellence Award (NHEA) 2026 was successfully held on Friday 26th, June 2026.

NHEA is an initiative of Global Health Project and Resources in Partnership with Anadach Group. The award is designed to celebrate distinguished personalities and organizations who have contributed immensely to the growth of the Nigerian health sector.

NHEA started in 2014 and has since become a high-profile event in the healthcare industry, gaining wide acceptance from stakeholders in the healthcare community from across the public and private sectors.

NHEA's recognition aims to stimulate quality improvement and innovation in the Nigerian health sector leading to improved service delivery and more effective management of key health issues and the capacity of individuals to influence and set new performance standards in Nigeria and beyond.

Find the Award Winner list here <https://nigeriahealthcareawards.com.ng/award-winners/>

Thank you for joining Anadach Group and People to People (P2P) for our webinar, AI at Scale: Experience and Lessons from the Healthcare Space on 1st July, 2026

Key Takeaways:

- Target High-Friction Problems: High-impact AI must target specific clinical bottlenecks. For instance, telestroke networks have already cut door-to-needle treatment times from 112 to 81 minutes.
- Build Infrastructure & Edge AI: EMR digitization is essential and can immediately cut 20–30% of paper-based medication waste. Lightweight, offline-capable Edge AI and Small Language Models (SLMs) offer reliable execution at 100x–1,000x lower costs than cloud models.
- Escape the "Pilot Trap": With roughly 95% of healthcare AI pilots failing to scale, sustainable implementation requires local government ownership, regulatory alignment, and workflow integration from day one.
